# CHY

---

CHY pre-plans, implements and measures social value strategy for all manner of different projects. We work with companies from planning and tender submissions, throughout development and into operation, and help them make a tangible positive difference to communities.

All our services are bespoke to our clients' needs.

## PLANNING & TENDER SUBMISSIONS

---

Social Value has become an integral part of winning work in the built environment. An obligation for contracts over a certain value, all local authority and public bodies and best practice for most private contracts, the importance of determining a robust social value plan – for both delivery and calculation is increasing.

CHY work collaboratively to inform and write the Economic, Environment and Sustainability Impact Assessments for planning submissions and answer the Social Value, inclusive growth and economic development questions within Pre-Qualification Questionnaires (PQQ) and tender submissions.

Our knowledge, experience and passion ensures that your submission will meet the required criteria as well as demonstrate how social value is recognised within your business.

## SOCIAL VALUE CALCULATION

---

CHY informs and integrates on and offline reporting mechanisms to forecast, monitor, measure and evaluate the social value outcomes generated by an area, a business and a project. If this is required to be demonstrated as part of a tender or planning submission, CHY has huge experience in this field and we are able to demonstrate how your business would measure the value delivered via your project.

Our answers and reports are based on local need, informed by local policy drivers and bespoke to your business, the requirements and the community.

## SPEAK TO US

---

If you want to work together, ask a question or you have any other feedback, let us know.

CHY works nationally, with clients across the UK.

11 Melbourne St, Hebden Bridge, West Yorkshire, HX7 6AS.
